After to-day the mails for Northeastern Railros will close at 8 o'clock A.M., and to-day and afterwards they are expected to reach the Railroad "Station" at 2:30 o'clock P.M., and to be ready for delivery at this office at 3:30 o'clock P.M., except on Sunday, when the hour will be from 6 P.M. to 7 P.M., until further notice.

FRUIT AND MELONS .- It will be seen by an advertisement that M. M. KLEIN, in King street, opposite Liberty, has just received a large assortment of fruits and melons from Augusta, Ga., which he offers to sell cheap, that all may enjoy such luxuries, and invites a call.

CHINESE PRACHES. -We have seen a specimen of this variety of peach, grown in the yard of Mr. Jas. Hunr, in King street, near Line. Its ruddy sppearance and large size at once shows that it is of imported stock though it has lost nothing since leaving the Celestials. Mr. Hunr has every facility for shipping fruit and vegetables; they are put up in a careful and substantial manner, and thus suffer little damage by bruising against each other. He has on hand crates, boxes, &c., and is prepared to send these articles to any point.

THE CROPS IN THE COUNTRY .- Our exchange bring us cheering news from the crops, and it is only in a few sections that any fears are entertained by the planters. In Spartanburg the grow ing crops on the bottom lands have in some instances have been destroyed, but a large portion of this has been planted again, and the prospects are good, not only for corn, but for cotton and other products. The rains have been felt more severely in the Pee Dee country than in any other ection, on account of the large quantity of low land in that locality. These lands have been thoroughly overflowed, and the inhabitants fear not only a loss of the rice crop, but that the large amount of water remaining stagnant in the swamps and low lands, when exposed to the heat of the sun, will cause sickness.

LARGE SALE OF REAL ESTATE. - Messes. SMITH & McGillivbay sold yesterday, at their stand in Broad street, the following valuable pieces of real estate, several farms in the Upper Wards were sold for the following amounts: No. 1, \$49 per acre; No. 2, \$60 per acre; No. 3, \$53 per acre; No. 4, \$50 50 per acre; No. 5, \$50 per acre; No. 6, \$50 These farms are situated near Rikersville, and

have been divided into small lots to suit purchasers, as this land will ultimately be extremely valuable. Several of the farms were bought by speculators, who design either holding them or putting upon them certain manufacturing estabts, which will be a source of profit to the

It is quite probable that Mr. Bowen's addresses have been ill considered and unsuited to the excitable imagination and imperfect comprehension of the freedmen; and unfortunately some evil has resulted from his being misunderstood by his hearers; but it does not appear that he has, at any time, used language which would fairly admit of such construction as to sustain the charges made; and in the absence of any averment of the exact language used at any particular time and place, I

"HEADQUARTERS ASSISTANT COMMISSIONER BUREAU R. F. AND A. L., SOUTH CAROLINA, CHARLESTON, June 25, 1867.

Respectfully forwarded to Captain J. W. Clous, A. A. A. G. Second Military District, with request that such steps may be taken as will compel Mr. Bowen to pay over to the within named parties the funds in his possession. According to the information in this office, Mr. Bowen received the moneys from Major Corbin, Provost Judge, as Solicitor for the claimants, and has failed to pay it

R. K. SCOTT, Brevet Major-Genera Assistant Commission st H. Van Ho

the 31st of January last, and judgment rendered for the plaintiffs. decree of the court awarded the plaintiffs, seized, and six hundred and eighty-seven (687), pounds of stone cotton was delivered to Bowen, as counsel of the plaintiffs, by the Clerk of the Provost Court.

The freedmen allege that they authorized Bowen to have the cotton prepared for market and sold, and that he has not accounted to them for the pro-

During the investigation of the foregoing charges against Bowen, complaints were made to me by a number of freedmen at Wadmalaw and Edisto Islands of transactions of a similar character to Islands of transactions of a similar character to Islands of transactions of a similar character. that hat cited, some of the complainants alleging that they had received nothing from the proceeds of the sales of their cotton by Bowen, and others. that he had but partially accounted to them for

In all of these cases the complainants alleged that the cotton had been received from the Clerk of the Provost Court, in satisfaction of judgments rendered against H. Van Holden, Charles H. Bailey, and Julian Bailey, and that Bowen was coursel for plaintiffs.

sel for plaintiffs.

I therefore examined the records of the Irovost Court, and have prepared the accompanying statement in tabular form of all the cases in which Bowen appeared as counsel for plaintiffs in that Court, from which the following facts appear:

Amounts which the parties who have made complaints say that Bowen has paid them, one hundred and fifteen dollars and fifteen cents......

owen claims that the proceeds of the sale of the cotton was only seven hun-dred and thirty-three dollars and thirty-tion, insurance, commission, etc., were one hundred and eighty-one dollars

And he further asserts that he has accounted to his clients for the whole of this sum, and also for the one hundred and ninety-eight dollars and seventy-five cents received in cash of the Clerk of the Court, with the exception of about two hundred (200) dollars, which he now has in his possession, and is, and ever has been, in readiness to session, and is, and over has been, in readiness to pay to the proper parties on demand.

These transactions of Bowen with the freedmen do not indicate a deliberate attempt or intention to defraud them, but rather a culpable neclect and want of system has characterized his dealings with them to such an extent as to give just cause for apprehension and complaint, and to require the interposition of military authority to secure an equitable adjustment of the interests involved. In view of these facts I have required Mr. C. C. Bowen to deposit in this office the sum of six hundred dollars (\$600) as security for the payment of, and as a fund from which to pay, any claims that shall be proved by the freedmen who may present demands against him. And I request that an arbitrator be appointed, by the Major-General Commanding, who shall arbitrate all claims against this fund.

Verdict of the Faculty. STIMULANTS INDISPENSABLE AS MEDI-

The most distinguished physicians in the United States have recently been placed on the witness stand, and have, with one voice, declared that pure stimulants are valuable medicinal agents. This decision of the faculty refers especially to medicated stimulants, of which the purest and the best at present known is HOSTETTER'S STOMACH BITTERS. Its basis is the alcoholic principle of the finest rve grown in the United States, and its erbal ingredients comprise the extracts of a large number of plants, barks and roots produced in various parts of the world, and all noted in the countries to which they are indigenous for their powerful sanative properies. As an invigorant and tonic, the value of the Bitters can scarcely be overrated. Hence its extraordinary effect in fever and ague and intermittents and remit tents of every type. Its anti-bilious properties are marvellous. Persons of bilious habit, by taking a small quantity once or twice a day, may completely change their constitutional tendency to liver disease, and escape all the unpleasant consequences which arise either from the undue sensitiveness or the unnatural torpidity of the biliary organ. Chronic constipation is eradicated thoroughly and in a very short space of time by small doses of this wholesome regular, taken night and morning; and for all the disorders which are superinduced by exhalations from decomposing vegetable and animal matter in the streets of cities, or the miasma of swampy districts; it is, when taken as a protective and preventive medicine, the most reliable of all safeguards.

INGERSOLL'S HAND POWER COTTON PRESS

For Convenience, Economy and Cheapness, the greatest Labor

Saving Machine that can be put on a Plantation. CPINIONS OF THE PEOPLE:

ALLENDALE, BARNWELL DISTRICT, S. C., March 1, 1867.

Messys. Little & Marshall:

GENTLEMEN: I used, during the past season, one of "Ingersoll's Portable Cotton Presses," purchased of you last september. I have always been prejudiced in favor of the "Serew Press," and nothing but dire necessity induced me to try any other. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighed over 500 lbs. The first lot I sent to market averaged 562 l.s. My impression is that 500 lbs. is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ten inches longer. In haste, I am, very respectfully, Your obedient servant, &c., B. W. LAWTON.

P. S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Sorew" and purchase "Ingersoll's Press."

B. W. L.

OFFICE OF KING'S MOUNTAIN RAILEOAD COMPANY, YORK TO A April 15, 1807.

GENTLEMEN: I have just received your letter of Fedruary 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."

The Press I used in packing my cotton last year worked admirably, packing, with ease from 500 to 525 lbs. With good active hands to work it, I am satisfied that from eighteen to twenty bales might readily be packed in a day.

that from eighteen to twenty bales might readily be packed in a day.

This Pr. ss combines the advantages of lightness, and consequent portability and simplicity (being easily managed b, any one of ordinary intelligence). Great compressing force, with little motive power, and "last, but not least," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Screw."

Respectfully, &c., yours,

E. M. LAW.

I have always recommended the Faber Polygrade
Lead Pencils as the ouly pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencils, manfactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil. SHEFFIELD SCIENTIFIC SCHOOL, pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that the will no longer be compelled to depend upon Germany any other foreign market for pencils.

ALL PENCILS ARE STAMPED "AMERICAN LEAD PENCIL CO. N. Y." None genuine without the exact name of the firm pook to it.
